

Database Screenshot

The screenshot shows a SQL query editor with two lines of code: `1 show databases` and `2 show TABLES from newsdb`. The output is a table with two columns: 'Database' and an empty column. The rows list the following databases: information_schema, mysql, newsdb, performance_schema, sultan, and sys.

	Database	
1	information_schema	
2	mysql	
3	newsdb	
4	performance_schema	
5	sultan	
6	sys	

Table Screenshot

The screenshot shows a SQL query editor with two lines of code: `1 show databases` and `2 show TABLES from newsdb`. The output is a table with two columns: 'Tables_in_newsdb' and an empty column. The rows list the following tables: categories, images, news, publishers, reporters, and summaries. On the left, a sidebar shows a tree view of the database structure with 'newsdb' expanded, listing the same tables.

	Tables_in_newsdb	
1	categories	
2	images	
3	news	
4	publishers	
5	reporters	
6	summaries
